Soaring Ever Higher

Okuma's Double-Column Machining Centers

Total shipments reach
10,000 units

Okuma's double-column machining centers are used in a wide range of different manufacturing sites around the world, and their total shipments have reached 10,000 units. Okuma views this achievement as an important milestone, and we will continue to evolve to solve the social issues of each era by going beyond just the pursuit of high speed and high accuracy machining.

We will also step up our efforts to assist in resolving social issues by developing technology for further automation, labor saving, and realization of a decarbonized society, thereby contributing to manufacturing around the globe and opening up a world of new possibilities.
